

# Smart Construction Advantage package

## *The core of a connected jobsite*

The Smart Construction Advantage package of solutions enable you to get the most from your investment in an IMC-equipped dozer or excavator and boost your efficiency and profitability. Collect and visualize as-built data, upload design files remotely, easily track payloads and more.

And it's all available at one package price thousands less than if purchased separately.

Annual retail price separately: **\$20,160**

Annual Advantage package price: **\$15,000**

### Smart Construction Dashboard

Combines as-built data from IMC and other machines, plus design and drone data to create a 3D virtual twin of your jobsite.

- Quickly measure cut-and-fill
- Job completion automatically calculated
- 2D/3D cross-section to check elevation changes
- Progress logs to understand overall completion from chart to timeline
- Heatmap visualizations showing completed/remaining work, cut/fill, overcut/overfill

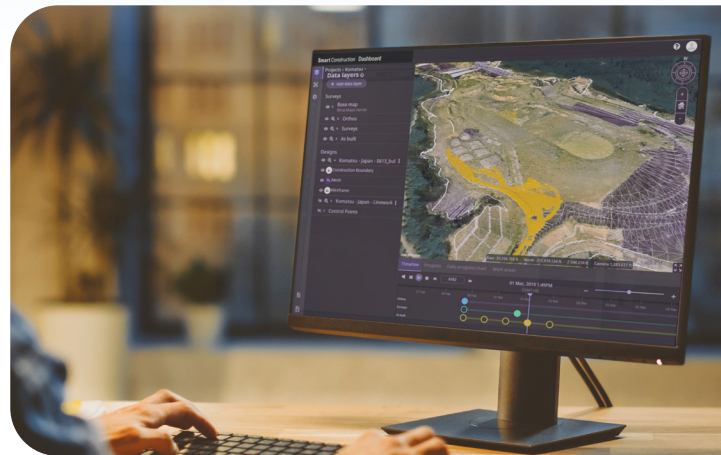

### Smart Construction Remote

Access to your machines from nearly anywhere.

- Send design data to machines without driving
- Remotely troubleshoot and assist operators
- Compatible with the latest IMC, Topcon® and Trimble® GNSS systems

### Smart Construction Fleet

Simple payload tracking.

Plus two solutions only available in the Advantage package:

### Smart Construction Whiteboard

Easily shared digital planning and dispatch.

- Drag-and-drop to assign assets
- Machine, attachments, people

### Smart Construction Home

See all Dashboard projects on one map "homepage."
